They are who we thought they were!

D-Teasers coach Dennis Green was seething. Judging by his comments, he clearly didn't believe the Pigskins lived up to the hype or deserved to win.

"The Pigskins are who we thought they were!" he said, yelling at the top of his lungs and pounding on the podium at his post game press conference. "Now, if you want to crown them, then crown (them)! But they are who they thought they were! And we let them off the hook!" Coach Green then stormed away.

SFFL Playoffs:

The top four teams -- [three division champs](#) and one wild card team -- compete for the League Championship. Division champs are the teams that win the divisions. **The wild card team is the team with the best Breakdown record among the nine non-division winners.** (Breakdown: What a team's record would have been if they played every team in the league every week of the season. Click Standings / Breakdown.) **The wild card team may come from any division.** The best division champ plays the wild card team, the other two play each other.
